THE PENTHOUSE LOFT SUITE

Featuring a minimalist look as well as the breathtaking effect of its historic surroundings, this penthouse loft suite stands out from the crowd. This casual setting is ideal for meetings, workshops, product presentations, or other private functions.

With luxurious amenities, a large panoramic window overlooking the Munich Cathedral (Frauenkirche) and an abundance of precious materials, our suite looks nothing short of extraordinary. There is a large open show kitchen equipped with the latest technology. There is enough space for 16 people to sit down for a seated dinner or 30 people to view a product presentation, depending on the seating arrangement. We'd be glad to work with you to determine what would be the most suitable seating arrangement depending on what style you prefer: a festive table, a block seating arrangement, rows or circles.
